

THE ULTIMATE NONPROFIT BUDGET TEAMPLATE

**...and how to use it to make a
bigger impact**

Hi, I'm Sarah Olivieri, #1 International Best Selling author, former Executive Director and creator of the Impact Method(TM). I help nonprofits and social entrepreneurs change the way they operate so they can make a bigger impact without getting overwhelmed or getting burned out.

There are two main elements to great financial leadership. One is making sure you properly account for the money you have and manage its flow, ie. paying bills, invoicing, etc. The other part is understanding how spending, saving, and receiving money impacts your mission and how you can use your financial data to gain insight into optimizing your capacity.

When you use this template, you'll finally be able to make better financial decisions that get you to your goals!

HOW TO ACCESS THE BUDGET

If I gave you a PDF of a budget, that wouldn't be very helpful. So here's what you need to do:

Access a real working spreadsheet version of the budget with all the needed formulas by following the link below. You'll also find a short video there showing you exactly how to make a working copy of the template for yourself.

DO I NEED ANY SPECIAL SOFTWARE?

No. You can use the budget template in any spreadsheet program. The original template is available in Google Sheets, and can be downloaded as an Excel file or csv file.

The compass has a circular dial with numbers from 0 to 360 degrees and directional markings for North (N), South (S), East (E), and West (W). The hand is positioned as if it's about to use the compass. The background is a blurred, dark green forest.
